You can always find a copy on Amazon in this beautiful book form, but unfortunately I have no reason to own any of the books you can buy online. I have a hard time buying a paperback book online, and I'm sure you can guess when you look. So I am very sad.

If you need the size, please ask :) Hugely popular. One of my all time favourite authors.. I have never read anything remotely original before, but the first novel was so obviously original, you actually read it at its beginning. It's a fantastic book.. Laila Majnun is a writer of horror genre where she writes about characters who become obsessed with eachother's memories. One can see this in the first chapter where the protagonist of the book is going through a sort of love affair with his brother. He is fascinated with other people's memories but his memories and the things he holds very dear such as his father and family, are extremely difficult to remember. Majnun writes about the relationships that are being formed between the characters and what these relationships might look like or what they could look like.
